## UFC JAQUEL BELIEVE IN CUSTOMER FIRST. WE BELIEVE IN CUSTOMER SATISFACTION.

For UFC JAQUEL, its responsibility does not end by manufacturing quality products. A team of technicians across India provide prompt after-sales services to its customers. UFC JAQUEL also provides unique support to its customers during the designing phase. Some of the general instructions carefully followed by the consumers to get optimum results of the products.

### GENERAL INSTRUCTIONS

- Use 25mm pipes rather than 20mm pipes to ensure better water flow and to overcome reduction in diameter of pipeline due to scaling inside the pipeline.
- Keep the minimum number of bends in the pipeline and make it travel straight and vertical as far as possible.
- All the supply must have vent pipes. These vent pipes help in removing air locking in the water supply to give a flow of water from the fittings.
- Test the working of all the concealed fittings installed on a high pressure for leakage before plastering or fixing the line.
- Clean the aerators provided in the items at regular intervals for a perfect foam flow of water from the fittings,
- Place the outlet point in the overhead tank at least 25cm above the ground level of the tank. This prevents the flow of the working parts. Clean the tank thoroughly before the supply starts. It is suggested that the overhead tank must be cleaned at regular interval to avoid deposition of foreign particles.
- Do not use strong harsh cleaning agents containing abrasive, acids detergents as this may cause damage to the chromium finish.
- To protect the finish of fittings from dirt stains and other damages, cover them with cloth/polypack after their installation till they come into actual use,
- It is suggested that center to center distance for hot and cold inter for all type of wall mounted mixers should be maintained at 165mm in which case any of our wall mixers from different ranges can be easily installed without anyproblem,
- Insist on genuine spares from the company's local service center or its authorised stockist in case of repair or replacement.
- For any type of technical or service assistance, please contact the nearest UFC JAQUEL branch, dealer, or area representative.

## WARRANTY TERMS AND CONDITIONS

The product is warranted by UFC JAQUEL to be free of defects in material and workmanship for a period of 9 years from the date of purchase. During this period and under normal use, If the product is found to be of faulty manufacture, the same will be repaired or replaced upon proof of purchase, at our option.

The warranty will be void and not valid, and UFC JAQUEL will have no liability if:

- Warranty is not considered if the hardness of water exceeds 200 TDS
- The product is not installed, operated or maintained and serviced in compliance with instruction and recommendations of UFC JAQUEL for trouble free fittings.
- Modification, repairs or service are made to the product, nature of the product/logo has been altered, defaced or removed, or the warranty card has been altered.
- Problems arising from improper use of product, improper application or improper maintained products or components of the same or use of bad/hard water.
- The product has been installed and operated outside its designated plumbing conditions and parameters.
- Concealed Cistern Warranty is for 2 Years from the date of purchase.
- PVD Coating / Color Faucet Warranty is valid for 2 Years
